A CALIFORNIA'S

Successful Experiment With Food.
A gentleman in Oak Park, Calif., Henry Pockman, took up the question of food; to see if he could recover from an old case of dyspepsia, from which nuxvomica, opium, and other remedies gave him no relief.

He started in with Grape-Nuts breakfast food and his dyspepsia quickly disappeared. He also left off the use of coffee and took Postum Food Coffee in its place. He writes that he has been put right, perfectly well, and going to remain so by continuing the use of the Grape-Nuts food and Postum Coffee.

It is worth anyone's trial who desires to be well, to change the diet, and particularly to leave off coffee. Grape-Nuts food contains elements that rebuild the gray matter in the nerve centers and brain and give one a feeling of reserve strength and vigor. This food is perfectly cooked at the factory, can be served instantly, and is on sale at all first-class grocers.
